Single - Serve Packaging Solutions

StickPack MULTILANES MACHINE High Speed

free flowing

industries food + beverages + pharmaceuticals + cosmetics + detergents

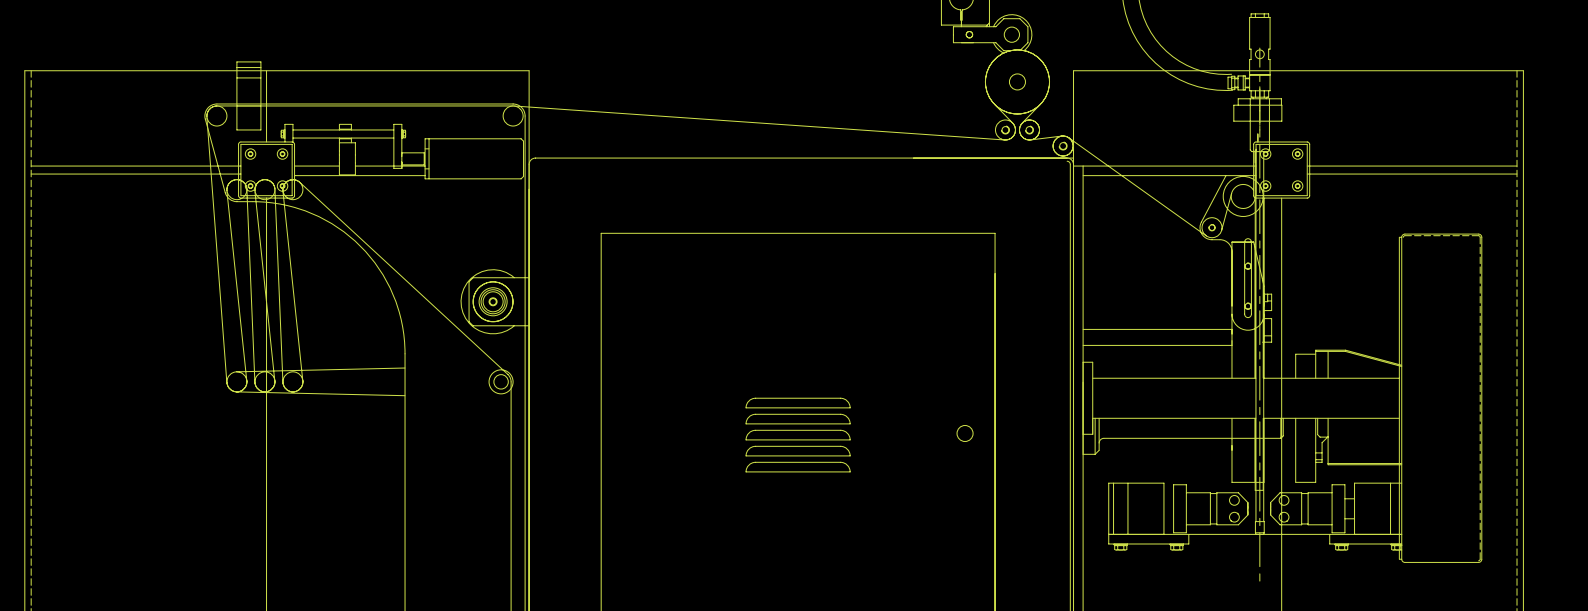

main characteristics

- Touch screen
- Total hermetic and monobloc machine, easy accessibility without corners for easy cleaning
- Expanding reel shaft
- Covered unwinder, motorized with security projections.
- Automatic reel alignment
- Photocell automatic correction of impression
- Stick presence control per dosing
- Temperature control by touch screen
- Automatic stickpack length change
- Tip-up vertical jaws
- Vertical folding and independent jaws
- Ethernet communication
- Parts in contact with product of AISI-316

optional equipment

- Product elevator
- Checkweigher
- Reel-joint detector
- Tear notch
- Straight cut
- Coders
- Metal detectors
- Distributor discharge belt
- Grouping and counting unit
- Cartoning transference
- End of line equipment
- 21 CFR Part 11
- Protocol DQ/IQ/OQ/PQ

Technical Details

	4 Lanes	6 Lanes	8 Lanes	10 Lanes	12 Lanes	14 Lanes
Min. StickPack width	17	17	17	17	17	17
Max. StickPack width	56	48	35	26	21	17
Max. StickPack length	180	180	180	180	180	180
Min. StickPack length	30	30	30	30	30	30
Min. Speed production (Stick/min)	120	180	240	300	360	420
Max. Speed production (Stick/min)	320	480	640	800	960	1.120
Reel Shaft (mm)	70/150	70/150	70/150	70/150	70/150	70/150
Ø Reel max.	500mm					
Standard Power consumption	5 kw					
Standard Air consumption (l./min)	220					

Taylor made equipments to meet customer's requirements, up to 25 lanes, 1000 mm.reel width max. End of line equipment also available.
